MANAGENT POLICY

At Satron, we design and develop innovative process measuring devices as well as intelligent measuring devices. We also offer our customers maintenance services and supplement our offer with products from our partners. By operating in accordance with our management system, we ensure the quality of the products and services offered to customers and ensure the continuous development of our operations.

Customer oriented approach

The needs and expectations of our customers form the basis of our operations. Customer satisfaction is the result of our success.

Flexibility

As a flexible supplier, we are able to both react and make decisions quickly, which helps us serve our customers in the best possible way.

Quality, Environment and OH&S

Throughout our long history, we have accumulated strong technical expertise and experiential know-how that we are proud of. We each value our own work as part of the company.

Through our operations, we want to reduce the environmental impact of industry by offering and developing the best products in the industry to optimize industrial processes. In our own operations, we strive to minimize risks and harms to the environment, and the occupational health and safety of our personnel is always top priority.

Satron always complies with laws and other binding obligations in its operations.
